

# SMART GALLEY

By **ATR**

## ATR: the benchmark in a constantly changing market

Today, ATR is the undisputed leader in the regional transport market.

ATR aircraft are operated by over 200 airlines in nearly 100 countries perfectly matching the requirements of airlines all over the world.

## THINK SMART, BE FLEXIBLE

The ATR -600 series is at the cutting-edge of technology in avionics and cabin interiors. With a wide range of customers with different needs - lessors, low cost carriers, flag carriers, start-up airlines and VIP customers - the challenge of meeting such a broad range of needs in a sustainable and viable way has led us to develop a new concept: the **Smart-Galley**.

**INCREASED STORAGE CAPACITY**

**OUTSTANDING DESIGN**

**FLEXIBLE**

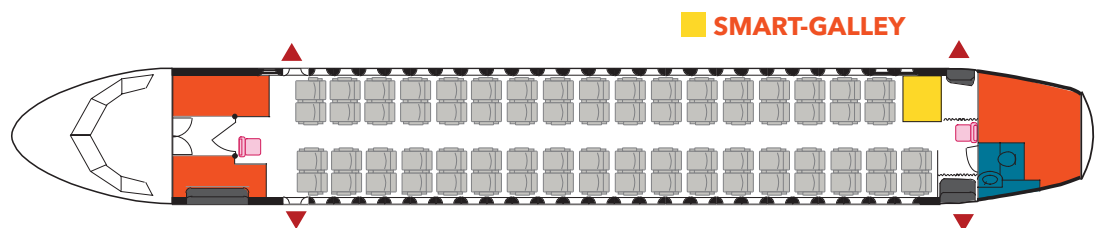

### UPPER PART EQUIPMENT

- OVENS
- HOT JUG
- HOT CUP
- STANDARD UNIT
- WATER HEATER
- COFFEE MAKERS
- BASIN

### LOWER PART EQUIPMENT

- HALF SIZE TROLLEY
- STANDARD UNIT
- WASTE BIN

**ATR 72-600 From 68 to 78 seats**  
Typical configuration, 70 seats

EASY RECONFIGURATION  
INCREASED STORAGE

THE CONCEPT **SMART GALLEY**  
*By ATR*

Brings a quick and easy galley reconfiguration without needing to return the aircraft to the manufacturer or to perform major work.

### OPERATIONAL BENEFITS

#### MODULARITY

- Pre-configured packages tailored to specific airline's needs (low cost carriers, seasonal services, VIP, etc.)

#### FLEXIBILITY

- Airlines can manage modular configurations with more than 180 potential options

#### EASY RECONFIGURATION

- No major work needed
- Quick and smart conversion

### A PROFITABLE AND ECOLOGICAL CHOICE

Smart Galley is also a cost-effective and environmentally friendly choice

#### FASTER PRODUCTION CYCLE

- With reduced galley production and installation leadtimes, airlines have more time for equipment selection

#### ECOLOGICAL SOLUTION

- Thanks to its modularity, the smart galley eliminates the need to dispose or destroy heavy waste (such as equipment and structure) during reconfiguration
