

Environmental & Quality Policy

The aviation industry is moving towards a more sustainable future. And so are we.

As the world leader in regional aviation, we must set an example in all our areas of activities. Our mission is to serve and connect our customers and communities around the world, and we will continue to do so while complying with the highest environmental protection and quality standards. This is also what our stakeholders are expecting from us.

To this end, we want to join forces with everyone at ATR, as well as our partners, and this is why we have developed an environmental and quality policy, as the cornerstone of our corporate social responsibility strategy.

This policy integrates every stage in the lifecycle of our products, and relies on innovation to improve the performance of our aircraft and services.

Through this, we reaffirm our commitment to contributing to an aviation that is more inclusive, more sustainable and more responsible.

For us, this means:

Respecting compliance obligations

Exceeding customers' expectations through continuous innovation of our products and services

Constantly monitoring and improving the company's overall quality and environment performance at our sites and on our products

Controlling and preventing environmental pollution.

ENVIRONMENT

1

REDUCE GREENHOUSE GAS EMISSIONS TO FIGHT AGAINST CLIMATE CHANGE

ATR is aware of the impact of its activities on greenhouse gas emissions and is committed to reducing its overall carbon emissions with the goal to contribute to Net Zero by 2050 in cooperation with partners and suppliers. ATR is committed to providing innovative and responsible solutions, to continue to offer aircraft with a reduced carbon footprint.

2

PRESERVE NATURAL RESOURCES AND PROTECT BIODIVERSITY

ATR is committed to optimising the use of natural resources, through a reduced consumption of raw materials, through waste recovery, and by increasing its use of renewable energies and sustainable alternative fuels. ATR strives to protect biodiversity and to prevent all disturbance and pollution of the soil, air and water.

3

MANAGE THE ENVIRONMENTAL ISSUES ASSOCIATED WITH THE USE OF HAZARDOUS SUBSTANCES

In order to protect the environment and the health of its employees, ATR undertakes to reduce and manage the use of hazardous chemical substances on its sites and prevent all emissions. ATR also works in collaboration with its suppliers to limit the number of hazardous substances in its aircraft, and identify alternatives.

QUALITY

1

INCREASE CUSTOMER SATISFACTION

Meeting Customer requirements is the highest priority in ATR. Fulfilling their needs and delivering solutions that respond to their expectations in a responsible and sustainable way is the commitment ATR takes on. We innovate and enhance operations to offer an improved customer experience while adhering to all applicable standards and approvals.

2

INCREASE OUR GLOBAL PERFORMANCE

Current market and context challenge ATR to be increasingly competitive. ATR believes in fair, responsible and ethical competition, and intends to prepare its future pursuing its strategic objectives through continuous improvement of efficiency, processes and working environment. ATR is committed to improve its global performance to ensure its sustainability as well as that of its customers.

3

DEVELOP AND MAINTAIN COMPETENCES

In order to meet our commitments, ATR pledges to periodically review and update its plans to maintain the competences and the skills of our staff and to implement improvements to ensure the alignment with future needs and to reinforce the Quality culture within the company.
