

ATR to Showcase Strong Future for Regional Aviation at Zhuhai Airshow 2022

Toulouse, 4 November 2022 – World's number one regional aircraft manufacturer ATR will attend the Zhuhai Airshow in China from 8 to 10 November (booth H4F1) as part of the company's commitment to helping enhance vital regional connectivity sustainably throughout the country.

The manufacturer will showcase its wide range of products and services designed for the essential air services of today and tomorrow, including its modern, comfortable, fuel-efficient and versatile ATR 42-600, in its 30-seat configuration, specially designed for the needs of the Chinese market. ATR will also underline its continuous commitment to a more sustainable aviation industry, with its turboprops burning up to 45% less fuel and emitting up to 45% less CO2 than similar-size regional jets, and soon to be 100% Sustainable Aviation Fuel certified.

This event will be an opportunity for the company to highlight the concrete benefits of a strong network of profitable and sustainable regional air links both for local communities, businesses and tourists who are all calling for a quick and responsible access to fresh produce, health, education, culture and the global economy.

On this occasion, ATR will be holding a media briefing with Mr. Wang Qi, VP Sales and Chief Representative to present ATR's latest updates and market potential on:

**Wednesday 9 November at 14.00 (local time)
Zhuhai Airshow Press Centre Conference Room 220**

About ATR ATR is the world number one regional aircraft manufacturer with its ATR 42 and 72 aircraft the best-selling aircraft in the less than 90-seat market segment. The unifying vision of the company's employees is to help everyone, no matter where they are in the world, to connect and develop in a responsible manner. Thanks to the efficiency of turboprop technology and the benefits of the company's focus on continuous innovation, ATR aircraft open more than 100 new routes on average every year, burn up to 45% less fuel and emit up to 45% less CO2 than regional jets. For all of these reasons, ATR aircraft have been chosen by some 200 companies in 100 countries around the world. ATR is a joint-venture between Airbus and Leonardo.
