

Berjaya Air signs for 2 ATR 72-600 with premium cabin interior

Berjaya becomes the launch customer of the ATR HighLine “All-Business Class” configuration

Paris Air Show, 20 June 2023 – Malaysian airline Berjaya Air has signed a Heads of Agreement for two [ATR 72-600](#). Both aircraft will be in an “All-Business Class” configuration, which is part of the new [ATR HighLine](#) premium collection of cabin interiors. They will have a 1-1 layout with individual outboard side stowage. Deliveries are planned for 2025 and 2026.

The two new aircraft will enable Berjaya to rebrand itself into a premium offering and to expand its network to serve the Group’s many resorts and hotels. From its main base at the Sultan Abdul Aziz Shah airport, Berjaya will operate the lowest emission aircraft available on the regional market.

Berjaya’s owner Tan Sri Vincent Tan said: “Berjaya’s vision is to offer passengers a unique VIP experience, with the highest level of comfort and operational efficiency, while also focusing on sustainability. Our ATR aircraft equipped with the ATR HighLine collection will help us make the most preserved destinations accessible to our guests with the most comfortable, responsible and future-minded aircraft on the market.”

Nathalie Tarnaud Laude, Chief Executive Officer of ATR, added: “We fully share Berjaya Air’s vision that there should not be any compromises between passenger experience, accessibility and sustainability. Their premium positioning further proves the versatility of our aircraft, which uniquely enable operators to benefit from exceptional comfort, unrivalled airport accessibility and low emissions on regional routes.”

About ATR ATR is the world number one regional aircraft manufacturer with its ATR 42 and 72 aircraft the best-selling aircraft in the less than 90-seat market segment. The unifying vision of the company’s employees is to help everyone, no matter where they are in the world, to connect and develop in a responsible manner. Thanks to the efficiency of turboprop technology and the benefits of the company’s focus on continuous innovation, ATR aircraft open more than 140 new routes on average every year, burn 45% less fuel and emit 45% less CO2 than regional jets. For all of these reasons, ATR aircraft have been chosen by some 200 companies in 100 countries around the world. ATR is a joint-venture between Airbus and Leonardo.
