

## ATR Statement

**Toulouse, 17 January 2026** – ATR has been informed that an accident occurred in Indonesia involving an ATR 42-500. Our first thoughts are with all the individuals affected by the accident. The ATR specialists are fully engaged to support both the investigation led by the Indonesian authorities and the operator.

### ABOUT ATR

ATR is the world number one regional aircraft manufacturer with its ATR 42 and 72, the best-selling aircraft in the below 90-seat market segment. The unifying vision of the company is to accelerate sustainable connections for people, communities and businesses, no matter how remote. Flown by some 200 airlines in over 100 countries, ATR aircraft open 120 new routes every year on average, facilitating the development of territories and enabling access to crucial services like healthcare and education. Thanks to ATR's focus on continuous innovation and the intrinsic efficiency of the turboprop technology, ATR aircraft are the most advanced, versatile, cost-effective and lowest-emission regional aircraft on the market, emitting 45% less CO2 than similar-size regional jets. In January 2022, we flew the first ever commercial aircraft using 100% SAF in both engines. ATR is a joint-venture between Airbus and Leonardo. Visit us on [www.atr-aircraft.com](http://www.atr-aircraft.com) for more information.
