

## Damien Proust

### Senior Vice-President Engineering and Head of Design Organisation

Damien Proust has been appointed as the company's new Senior Vice-President Engineering and Head of Design Organisation, effective 1 May 2026. He reports directly to the Chief Executive Officer.

Damien brings more than two decades of engineering and leadership experience, having held several senior positions at Airbus. Since 2018, he was Vice-President, Head of Propulsion Airframe, overseeing research, development, production and in-service support activities for pylons and nacelles across all aircraft programmes. He is also Vice President of TOMPASSE, a leading aerospace industry association in the South-West region of France.

His experience, values and collaborative leadership will support the company's continued evolution and its ambition for sustainable regional aviation.
