

***ATR** HighLine*

Where premium aviation meets turboprop efficiency

The background is a solid dark blue. On the right side, there is a complex geometric pattern of thin, light orange lines. These lines intersect to form a star-like or web-like structure. One line runs vertically down the right edge. Another line runs diagonally from the top right towards the center. A third line runs diagonally from the bottom right towards the center. These three lines intersect at a central point on the right. From this intersection, several other lines radiate outwards, some parallel to the main lines and others at different angles, creating a sense of dynamic movement and structure.

ATR HighLine is the collection of high-end cabin interiors offering ultimate style and comfort across the ATR aircraft family.

These cabin interiors offer new opportunities for operators seeking to elevate passengers' travel experience while delivering a heightened sense of status.

With 45% less fuel consumption and carbon emissions compared to similar-sized jets, ATR HighLine aircraft are set to disrupt and redefine regional aviation while offering a more responsible choice for high-end aviation markets.

Opening a new category: high-end regional air travel

UNIQUE VALUE PROPOSITION

ATR HighLine builds on ATR's proven strengths by adding a new premium comfort dimension to an already unique set of advantages.

ATR HighLine
**Premium
comfort**

Unmatched economics

Driven by turboprop
efficiency

Lower footprint

-45% fuel burn
& CO₂ emissions
vs same-sized jets

Enhanced accessibility

Short take-off & landing
capability to reach more
destinations

Making premium travel accessible to more markets

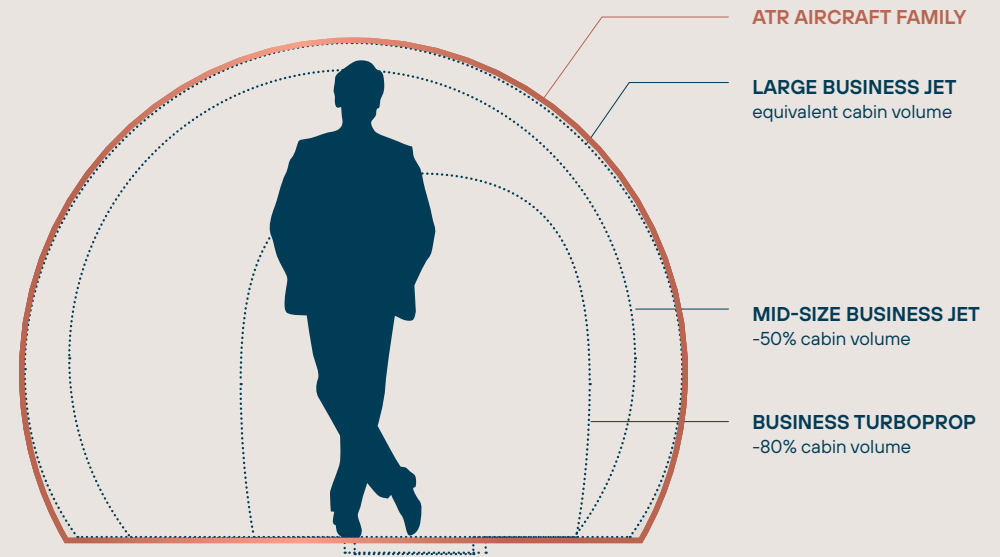

- ✓ Boutique Airlines
- ✓ Semi-Private Operators
- ✓ Corporations
- ✓ Governments
- ✓ Hotels & Resorts

Step into a cabin as spacious as the largest business jets

As soon as you step on board, the perspective changes. Space, light and a sense of openness immediately introduce a different vision of regional travel. A cabin designed so that the journey matters just as much as the destination.

A New Design Partnership for ATR HighLine

The ATR logo is rendered in a bold, italicized, orange sans-serif font.The ACJ logo is rendered in a bold, dark grey sans-serif font.

« ACJ's collaboration with ATR on the X-Space Table is a fantastic opportunity to apply our cabin design expertise to premium regional travel. Our design philosophy for this new product is guided by a functional and innovative approach, transforming the X-Space Table into a true extension of the passenger's personal space, with flexibility at its core. This collaboration is the first of several ideas we are already exploring together. »

Sylvain Mariat

*Head of Creative Design,
Airbus Corporate Jets (ACJ)*

The logo for ATR HighLine, featuring the word "ATR" in a bold, italicized, orange sans-serif font, followed by "HighLine" in a lighter, italicized, orange sans-serif font.
